PROFILE

I am a 1st-year student at the Faculty of Informatics, Masaryk University, specializing in Game Development. As a Junior Unity Developer, I have practical experience with programming game mechanics, systems, and UI implementation in C#. I have a strong command of Git and am looking for an opportunity to turn my passion for games into real commercial projects in a professional environment.

EDUCATION

Bc. - Programming and Application Development

Faculty of Informatics Masaryk University in Brno

09/2025 - Today

I started my Bachelor's studies and moved to Brno, where I plan to stay long-term.

Computer Network Mechanic

01/2021 - 05/2025

Secondary School of Information Technologies

During my studies, I gained hands-on knowledge in programming, maintenance, configuration, and network administration.

Example Projects

More projects can be found on my github: github.com/martinecko30

Pegasus Engine

2024 - Today

PegasusEngine started as a passion project aimed at understanding what happens "under the hood" of modern game engines like Unity or Unreal. Instead of using out-of-the-box solutions, I decided to implement the core systems from scratch using C# and the OpenTK library.

WORK EXPERIENCE

System Administrator

09/2023 - 05/2025

Ditec a.s.

As a member of the network management team, I assisted in the implementation and maintenance of network infrastructure (routers, switches) and the diagnostics of arising network anomalies. We collaborated as a team on identity management, user access rights, and testing the reliability of the corporate network.

Instructor

12/2024 - 12/2025

Programko s. r. o.

I led programming courses in various programming languages for gifted children. I developed my communication and information mediation skills.

Unity C# Developer

02/2024 - 09/2024

Hemisféra I'avá, o. z.

Responsible for the implementation of game key systems in Unity C# (Inventory, UI, Dialogues). I collaborated within a team on testing the game prior to its release.

Instructor and Animator (Activity Leader)

06/2023 - 08/2024

Hemisféra I'avá, o. z.

Working with specific groups of children, conflict resolution, and effective communication with parents and colleagues.
